The 18ᵗʰ International Conference on Document Analysis and Recognition
September 17-21, 2025 Wuhan, Hubei, China

Call For Papers

Organizing Committee

General Chairs

Executive Co-Chairs

PC Chairs

Workshop Chairs

Tutorial Chairs

Competition Chairs

Doctoral Consortium

Publication Chairs

Poster/Demo Chair

Awards Chair

Sponsorship Chairs

Industry Chairs

Publicity Chairs

Technical Chair

Secretariat

ICDAR is the premier event for scientists and practitioners involved with document analysis and recognition, a field of growing importance in our current age of digital transition. The 18th edition of this flagship conference will be held in Wuhan, September 17-21, 2025. **(**The conference will be an XXX event (XXX=hybrid)?**)**

Paper Submissions:

There is both a standard conference paper track and a journal track at ICDAR 2025; details regarding the journal track may be found in a separate Call for Papers **(***LINK***)**.

Reviewing for conference papers will be **double blind**. Authors should not include their names, affiliations, or acknowledgements in submitted manuscripts, and should ensure that their identity is not revealed indirectly by citing their earlier work in the third person.

Papers may be up to **15 pages long (including references) in Springer Lecture Notes in Computer Science (LNCS) format**. Detailed submission instructions for authors can be found on the conference website (https://icdar2025.org).

Topics of Interest:

Document image processing Physical and logical layout analysis Text and symbol recognition Handwriting recognition
Document analysis systems
Document classification
Indexing and retrieval of documents
Document synthesis
Extracting document semantics NLP for document understanding Office automation
Graphics recognition
Human document interaction Document Representation Modeling
Document VQA
Private and secure document understanding

Structured document generation
Multimedia document analysis
Mobile text recognition
Pen-based document analysis
Scene text detection and recognition
Recognition of tables and formulas
Historical document analysis
Signature verification
Document summarization and translation
Document forensics and provenance Medical document analysis
Document analysis for social good
Document analysis for literature search
Gold-standard benchmarks and datasets
Foundation models (Large Multimodal Models) for document understanding

Publication: Springer Lecture Notes in Computer Science

The conference proceedings will be published as part of the Springer Lecture Notes in Computer Science (LNCS) series. Accepted papers will be freely available through SpringerLink from the conference website for one year after publication, and will later be freely available through SpringerLink four years after publication.
